

# Telstra V900 Twin

Digital Enhanced Cordless Telephone  
with SMS~ and Two handsets

## Telstra Calling Number Display\*

Telstra's V900 Twin lets you identify the caller's telephone number (except for blocked calls), allowing you to screen your calls before you answer the phone. With the Call Waiting Display feature you can also see the second caller's number when you are on the phone.

The V900 Twin can also display the caller's name as well, if you have programmed the caller's number & name into the phone memory.

## SMS Features~

Send and receive SMS to other SMS enabled phones allowing multi users.

## Telstra Flashing Message Indicator\*

A flashing LED and Display Icon gives the user a visual indication when a new message is recorded on Home Message 101 or MessageBank® service.

For more information on these features call 13 2200

## Display

Graphic Black and White Display

\* Service available in most areas.

~ Service must be text compatible to send and receive fixed SMS.  
Call 13 22 00 to find out if your service is text compatible.
